Contents

This Pankyll theme example is a template that shows how to configure a site with the theme Simplicissimus and can be used to kick start once own site.

1 Test The Example

Get the example:

```
export URL=https://github.com/ckuelker/pankyll-theme-simplicissimus-
↪    example.git
git clone --recursive $URL
cd pankyll-theme-simplicissimus-example
```

Run `pankyll` manually to populate the public directory or use the `Makefile`:

```
make realclean
make submodule-update
make submoduleclean
make submodule-pull
make build
make server
```

Point your browser to the URL given
